

ETC 7- SEVENTH ERME TOPIC CONFERENCE: LANGUAGE IN THE MATHEMATICS CLASSROOM (18th-21st February 2020, Montpellier University, France)

Timetable

The afternoon of the 18th is for Young Researchers only.

Working sessions will be organised in three working groups corresponding to the different subthemes:

- ST1: Language in multilingual contexts
- ST2: Language for meaning making
- ST3: Language in interaction

Participants are expected to attend the five sessions of the subtheme you choose. Papers and posters will be discussed in each of the groups and participants are expected to have read the papers before attending the sessions.

All the scientific activities will take place in the Faculty of Education of the University of Montpellier.
